

Campus Association Transfer Payment

Purpose:

The University of Alberta Students' Union recognizes that the ASA provides essential services. These services would otherwise be provided by the UASU if Augustana was located on North Campus. As such, the UASU provides additional financial support, in the form of a Campus Association Transfer Payment, in an attempt to subsidize the cost of these services.

Policy:

- The percentage of the Students' Union membership fee transferred to the ASA shall be determined by dividing the net Political/Governance spending of the Students' Union by the net Students' Union membership fees collected; then multiplying this number by one hundred; then subtracting this number from one hundred.
- The percentage of the Students' Union membership fee transferred to the ASA may be recalculated upon the mutual agreement of the ASA and the UASU. Notwithstanding this, the term between recalculations shall not exceed five years.
