Overview

I was given the joy of being nominated into the Student's Association by our Moyosore for our winter semester. A big thank you to everyone for voting me in. While this semester has been a lot shorter than expected I have enjoyed my short period of time being part of the ASA. I feel very accomplished in what I was able to do with the limited time I was given. I have been blessed with working alongside a lovely group of people to help our student body.

Events and Committee

The week after I was voted in was the same week as Casino Night. I was able to help with security, set up and take down. I joined the activities committee the week of formal so I was able to jump in and help out with set up and any tasks I could. I worked the snack bar for the last two hours of the evening and helped with clean up. Similar tasks of set up and take down were done in attendance to the Winter Off-Campus Supper. With the closure of the school and such, activities got put to a stop. Instead, transition documents were recorded into google documents to make year to year changes easier to record. I was given First and Last Class Bash.

THIRD YEAR
REPRESENTATIVE

Personal Initiative

Unfortunately, my personal initiative was unable to come to completion due to the shutdown of the school. I was working on having a cat café sort of idea for the end of the year. I was working with the Camrose Animal Shelter for cats to bring. I was also collecting information of animal restrictions on campus and special permission eligibility from a few people such as Randal Nickel, Rebecca, and some other university staff members. I have not stopped working on sorting out the details for it in case it is wanting to be done in the future.

Closing

Thank you all for the amazing second semester. It has given me the ability to end my year on a positive note. This year has been a little bit of a rollercoaster and because of that I am deeply grateful for the breath of fresh air your kind souls have brought.

I plan to run for a new position in the fall elections to be able to continue my work and help the student body along with returning and new council members. I wish you all the best! And good luck with finals 😊

Yours truly,
Sayley Callejon
