Kelsey Moch 780-678-4951 moch@ualberta.ca 4 th Year student Price: \$15/hour	Hi, I am a 4 th year student that is very passionate about science, with specific interest in Biology and Chemistry. In addition, I have also taken many other fascinating courses that have helped me become a well-rounded, academic individual. I aspire to become a medical doctor someday and specialize in neurology or cardiology. I am looking forward to tutoring high school students and university students. I hope to help them become more confident in their abilities, relieve some of the overwhelming stress that school can cause, and also share my curiosity and desire for scientific knowledge.
